

Forest School – Week 2

It was our second day at Forest School for the Reception children this week and although it rained on some of us, it did not dampen our spirits!

This week we paid a visit to the farm. We saw many different animals: the Kunekune pigs, the chickens, the geese (who were very noisy!), the goats (Harry and Scooby), the resident ducks and our own not-so-little ducklings!

We went on the zip-wire. It was really fun!

We went on a hunt for leaves and identified the different trees that they came from. We then painted the leaves and did some printing!

We used some tools this week to have a go at the art of whittling. We used a potato peeler to strip the bark off a holly branch and talked about how to do this safely.

We used our whittled branches to make wands!

We can't wait to return next week – rain or shine!!
