

We have had a wonderful week of sessions at Forest School this week, the first were there was no rain but it was not too hot as we had the shade of the forest around us. Perfect weather for Forest School.

This week we had a go at problem solving, looking for ways to cross the river without falling in and the crocodiles eating us. Look at some of the ways we did this.

Kayleigh gave her group three pieces of wood and challenged them to cross the river using these. The children had a good think about the ways to this and eventually worked the problem out.

We made some fairy potions using resources from the woodland so our potions to be magic. Then we made a wish around the fairy tree. We hope that they come true.

We also had another go at toasting marshmallows; all the children toasted theirs and enjoyed tasting them once toasted to perfection!

Another lovely session using the woodlands as our classroom, we are looking forward to our next adventure.
