

We went on bug hunt. We talked about where the bugs like to live and used photographs to help us identify our bugs.

We carefully put our bugs in tubs and used magnifying glasses to look closely at them.

When we were finished we made sure that we put them back in their habitats.

In the fairy garden we made homes for the bugs. We used twigs, sticks, pebbles and fairy breath. We worked together showing our school values of teamwork and perseverance.

Jack made popcorn for us on the fire. We talked about the three things that fire needs- oxygen, fuel and heat. We know how to keep safe around the fire.
