

This week we have been to the beach instead of the forest. On Wednesday it was a cloudy day but luckily there was no rain!

On the beach we searched for different materials to make pictures with.

We made a crab, a mermaid and a stripy beach hut.

We made sandcastles and decorated them with the things that we found around the beach.

In the rock pools we found lots of interesting things; shells, crabs, parts of crabs and even a dogfish! Of course we put everything back where we had found it, after we had had a good look.
