

Dentist and Fire Brigade Visit

Our topic for this term is 'People who help us'. To find out more we had a visit from the dentist and the fire brigade. The dentist told us how it is really important to brush our teeth every day and foods that we shouldn't eat too much of. In the afternoon we met Margate fire brigade. They showed us all of the special equipment they keep on the fire engine and what they use it for. Afterwards we got the chance to use their hoses and spray water at one of the fire fighters. It was really fun!
