

## Duck Diary Day 10

The ducklings are really getting big now and are ready to start moving to their new homes. They had their daily swim and the children got to see this for themselves. The children thought the ducklings were funny in the water.

After school two of the ducklings went to their new home. Mrs Love-Court took two ducklings to go and live on a nice farm. We are sad to see them go but are sure they will enjoy their new home.
