

## Duck Diary Day 2

Today when the teachers came to school today the eggs had all hatched and the ducks were resting under the brooding plate.

The children were very excited to meet the ducks when they arrived and spent a long time watching them as they explored how to eat and drink. They were very happy to meet the ducks.

The ducklings have been exploring their surroundings and meeting lots of new people.

Everyone who has met them agree that they are all very cute and fluffy!

By the end of the day the ducks were very tired and were fast asleep resting for another busy day tomorrow.
