

This week we talked about the fire safety rules and thought about what we need to make a fire. We had a go at making sparks with the fire-lighter.

In the fairy garden we made mud monsters to protect the fairies.

We mixed the mud and water and loved squishing it with our hands!

We went on a scavenger hunt around the forest, looking for something that made a noise, something round, something beautiful and much more! The children came up with some fantastic ideas.
