

Forest School – Week 5

What a week! We did lots of exciting and new activities.

We had a go on the zip wire. It went really fast. We had to make sure we held on tight and crossed our legs as we swung into the air at the end!

We then paid a little visit to the farm. We stroked a duck and checked to see if the chickens had laid any eggs.

We used tools for the first time this week. We whittled wonderful wands using a potato peeler. We used gloves to keep our hands safe and peeled the bark from the sticks whilst pushing away from us.

We then decorated them with string.

Of course we also had marshmallows at the fire circle! We used the fire striker to make our own sparks.
