Warm up

Standard English

The grammar used in some dialects is different from the grammar of Standard English. It isn't wrong, just different. When you talk, especially when you talk to your friends, you use lots of expressions which are not Standard English. This is fine, but when you write, it's important to know what the Standard English grammar is. All the expressions below use non-Standard English. Look at these dialect expressions and see if you can give the Standard English equivalent.

- Where be he to?
- We was blue with cold.
- He'll be home while four o'clock.
- I were mad with him, I were.
- When I gets in I likes a nice cup of tea.
- I never done it.
- Me and my mate we sees him everyday.
- I likes them chocolate cakes.
- That's the man what I saw.

Thursday's English:

Extract 1

'Kat?' I said.

'What?'

What does it mean when something is up your street?'

'Huh?'

'Salim said The Tempest would be right up my street. He acted in it at school last term.'

Kat laughed. 'We've been reading it at school too. Mr Moynihan keeps making me read Miranda's part and she's such a ... dishraq.'

I considered this. 'So it's not up your street?'

'No way.'

The pod was nearing one o'clock. 'What d'you think of Auntie Glo?' Kat asked.

I remembered what Dad said about her leaving a trail of devastation in her wake. Then I remembered how she'd said I was like Andy Warhol, a cultural icon. 'I don't know.'

'Me neither. I heard Dad say to Mum that Auntie Glo drives him bananas. And I found two empty bottles of wine on top of the fridge.'

In my mind's eye, Aunt Gloria turned into a motorist with driving goggles and a huge consignment of bananas in the back seat.

'You mean, she drives him bananas the same way I drive you nuts?' I said.

'Bananas. Nuts. Round the bend. Off your trolley. Whatever.'

She laughed and I joined in because it showed I knew what she meant even if I wasn't sure what was funny about Aunt Gloria making Dad feel insane.

Read Extract 1 again and answer the following questions.

- What does Salim say is up Ted's street?
- Which part has Kat been reading in school? Do you think she enjoys it?
- What position is the pod at in this extract?
- Why did Ted laugh?
- Why is Ted unsure on his opinion on Aunt Glo?
- How does Aunt Glo make Dad feel? Use evidence from the text to back up your answer.
- In my mind's eye, Aunt Gloria turned into a motorist with driving goggles and a huge consignment of bananas in the back seat. Why did Ted get this image in his mind? Use evidence from the text to help explain your answer.

Extract 2

We walked over to where Mum and Aunt Gloria were having coffee. Let's lie, hissed Kat.

'About taking that ticket from a stranger.'

She grabbed me by the wrist so hard it hurt.

'Lie,' I repeated. 'Hrumm. Lie.'

'We could say that Salim got lost in the crowds, that he—' She let my wrist go. 'Oh, forget it,' she said. 'I know telling a lie with you is useless. And stop doing that duck-that's-forgotten-how-to-quack look!'

We reached the table where Aunt Gloria and Mum sat talking up another storm. We stood by them in silence. A pounding started up in my ears, as if my blood pressure had shot up above normal, which is what Mum says happens to her when Kat drives her distracted.

'There you are,' Aunt Gloria said. 'Have you got the tickets?'

Kat waited for me to say something.

I waited for Kat to say something.

'Where's Salim?' asked Mum. 'Not still in the queue?'

'Hrumm,' I said. 'No.'

Mum looked as if Salim might be behind us. 'Where then?' Read Extract 2 again and think about the events that unfold.

- Return to the beginning of the extract and summarise the key points from the extract.
- What do you think about the extract? Do you like it? Give reasons for your answer.
- Predict what may happen next. What could of happened to Salim?

Totem poles

=**x**

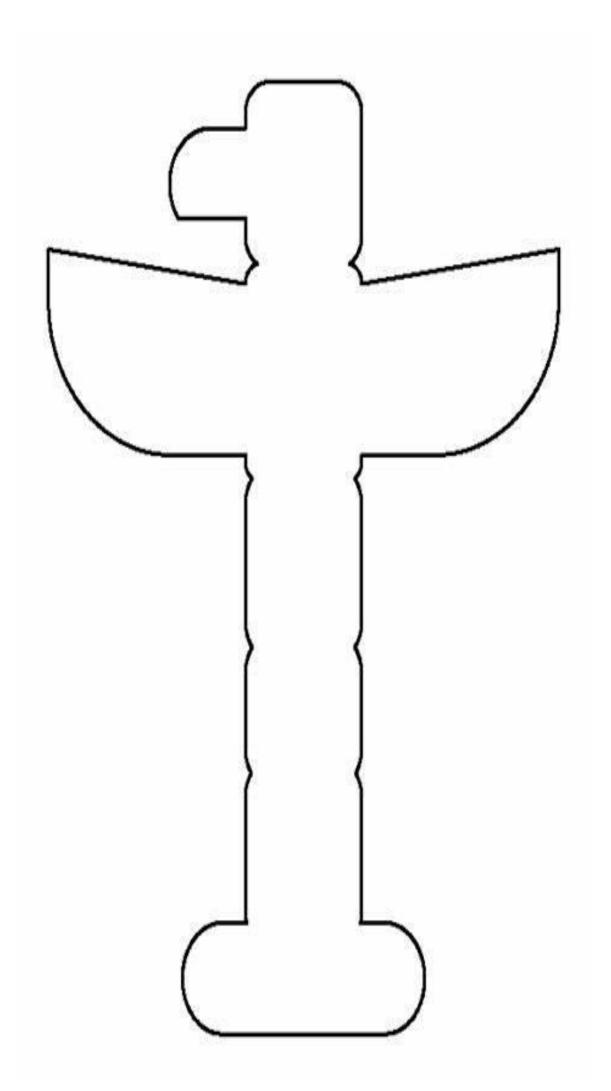

Totem poles were built by about 30 Native American tribes living along the Northwest Pacific coast of North America. These wooden towers, carved with images of animals and symbols, were monuments expressing a family's status within a tribe. These people made a good living from fishing in the sea and in rivers teeming with salmon, as well as from hunting in nearby forests. This allowed them time to develop a unique form of art, the totem pole.

Beaver	Old, wise, builder, creative, artistic & determined, strong sense of family, builder of dreams
Eagle	Ruler of the sky, great strength, leadership, prestige, divine spirit, connection to creator
Frog	Spring & new life, communicator, stability, rich in life, survivalist, connectior to water element
Hawk	Strength, quick to assist when in need of help, messenger, stopper of time
Owl	Wisdom, watchful, perseverance, respected, may be associated with death

	Raven	Credited for having tricked the owl and giving fire to man, putting the sun & moon in the sky and trees and rivers on land – tricky, mischievous & at times greedy
	Thunderbird	Caller of rain, mystical, leadership, known to make lightning and thunder with a blink of an eye or flap of its wings
	Whale	Hunter & commanding of the sea, family centered, wisdom, power, cleanser
	Wolf	Loyalty, success, perseverance, powerful, heals humans that are sick, teacher, pathfinder and survivalist
	Bear	Teacher, often misunderstood, welcome, friendly, strength, learned humility, motherhood
The state of the s	Salmon	Provider, instinct, persistence, dependability & renewal, represents different clans,

Use these symbols to create your own totem pole on the template below.
