

## Monday

### English

To listen to a poem

Home learning focus:

In today's lesson, we will listen to a poem and have a chance to act it out. We will then answer some questions on it.

**Equipment needed:** You will need a

piece of paper and a pencil.

This lesson includes:

- An introduction in to poetry.
- A poem to learn.
- Questions about the poem.
- The opportunity for self-assessment.

Please click on the link to access your learning:

<https://classroom.thenational.academy/lessons/to-listen-to-a-poem/>

### Maths

To solve word problems

Home learning focus

In this lesson you will use addition and subtraction knowledge to solve word problems.

**Equipment needed:** You will need a piece of paper and a pencil.

This lesson includes:

- A video explaining different ways of solving word problems.
- Four independent tasks.

Please click on the link to access your learning:

<https://classroom.thenational.academy/lessons/to-solve-word-problems/>

### History

Who was Queen Victoria?

Home learning focus

To discover more about Queen Victoria.

**Equipment needed:** You will need a piece of paper and a pencil.

This lesson includes:

- A video about Queen Victoria's life.
- Two activities to complete.

Please click on the link to access your learning:

<https://www.bbc.co.uk/bitesize/articles/zvcsvk7>

## Tuesday

### English

To identify rhyming words

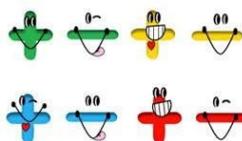

Home learning focus:

Today we will be identifying rhyming words and working out which words rhyme and which words do not.

### Maths

To explore addition and subtraction

Home learning focus:

In this lesson you will use addition and subtraction strategies to solve equations.

**Equipment needed:** You will need some paper and a pencil.

### Science

To learn about different habitats

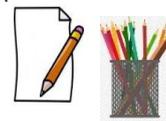

Home learning focus:

To learn about the different habitats animals live in.

**Equipment needed:** You will need a piece of paper, a pencil and some

colouring pencils.

**Equipment needed:** You will need a

piece of paper and a pencil.

This lesson includes:

- A recap of the poem learnt yesterday.
- An introduction to rhyming words.
- The opportunity for self-assessment.

Please click on the link to access your learning:

<https://classroom.thenational.academy/lessons/to-identify-rhyming-words/>

This lesson includes:

- A learning summary.
- A video exploring the different ways of solving equations.
- Four activities to complete.

Please click on the link to access your learning:

<https://classroom.thenational.academy/lessons/to-explore-addition-and-subtraction/>

This lesson includes:

- Eight videos discussing different habitats.
- Three activities to complete.
- The opportunity for further learning.

Please click on the link to access your learning:

<https://www.bbc.co.uk/bitesize/articles/zjnw7nb>

## Wednesday

### English

To identify onomatopoeia

Home learning focus:

Today we will be learning about onomatopoeia so that we can include it on our poems that we write on Friday.

**Equipment needed:** You will need a piece of paper and a pencil.

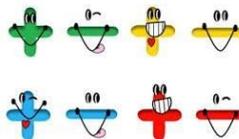

This lesson includes:

- An introduction to onomatopoeic words.
- The opportunity to write onomatopoeic words.
- The opportunity for self-assessment.

### Maths

To explore addition and subtraction

Home learning focus

In this lesson you will use addition and subtraction strategies to solve equations.

**Equipment needed:** A piece of paper and a pencil.

This lesson includes:

- A video explaining different strategies to solving equations.
- Two activities to complete.

Please click on the link to access your learning:

### Geography

To learn about Rio De Janeiro

Home learning focus:

To learn about the city of Rio De Janeiro in Brazil, including major sights, some traditions and the Rio carnival.

**Equipment needed:** You will need a pencil, some paper and some

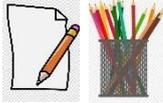

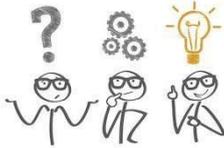

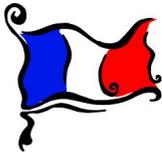

colouring pencils.

This lesson includes:

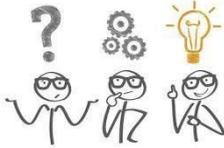

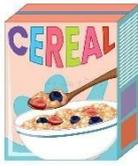

- Instructions for the task.
- One video introducing the city.
- One video about the Rio carnival.

## Friday

<p style="text-align: center;"><b>English</b> <u>To write a poem</u></p>  <p>Home learning focus:</p> <p>Today we are going to write our own magic wand poem.</p>	<p style="text-align: center;"><b>Maths</b> <u>To solve problems in context using addition and subtraction</u></p>  <p>Home learning focus:</p>	<p style="text-align: center;"><b>Design and Technology</b> <u>To learn about product packaging and design</u></p>  <p>Home learning focus:</p>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

**Equipment needed:** You will need a piece of paper and a pencil and your plan

from yesterday.

This lesson includes:

- A chance to write your very own poem.
- The opportunity to sound out unfamiliar words and apply phonic knowledge.
- The opportunity to use previous knowledge on rhyming and onomatopoeic words.

Please click on the link to access your learning:

<https://classroom.thenational.academy/lessons/to-write-our-poem/>

Don't forget you can also share your beautiful work with your class teacher by emailing them at school!

In this lesson you will be solving equations using addition and subtraction strategies.

**Equipment needed:** You will need a piece of paper and a pencil.

This lesson includes:

- Introductory quiz.
- An independent activity.
- Different uses of mathematical language.

Please click on the link to access your learning:

<https://classroom.thenational.academy/lessons/to-solve-problems-in-context-using-addition-and-subtraction-4c650c/>

Don't forget you can also share your beautiful work with your class teacher by emailing them at school!

In this lesson you will learn about the basics of product packaging and design.

**Equipment needed:** You will need a piece of paper or card, a pencil and a ruler.

This lesson includes:

- Two videos about product packaging.
- Two activities to complete.

Please click on the link to access your learning:

<https://www.bbc.co.uk/bitesize/articles/zk9xhbk>

Don't forget you can also share your beautiful work with your class teacher by emailing them at school!

## Other activities for the week

**Here are some other ideas for the week:**

**Mindfulness:**

Everyone's brains can get busy sometimes so why not make a glitter shaker that you can shake when your brain feels busy and watch the glitter slowly sinking back to the bottom while your brain calms too. All you need to do is get an empty jar with a screw-top lid (like a jam jar), clean it inside and out and fill it with warm water. Then add some glitter glue and screw the top back on tightly.

### P.E:

Get yourself moving and wide awake by doing some morning exercise with Joe Wickes! It starts at 9am every morning and is a sure-fire way to wake yourself up after a long nights sleep!

<https://www.youtube.com/user/thebodycoach1>

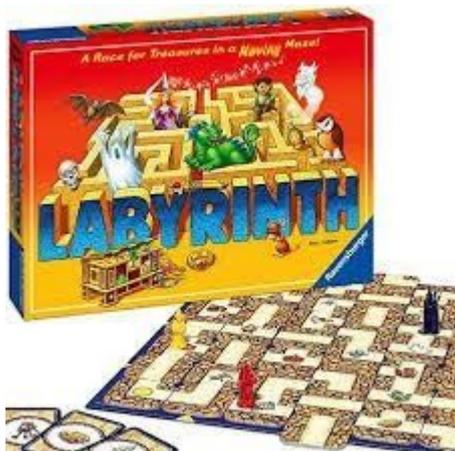

### Art

Create your very own colourful piece of abstract art by putting strips of masking tape in different patterns across a piece of paper or card. Paint each section a bright, fun colour and let it dry. Slowly remove the masking tape to reveal your own amazing abstract artwork!

### Maths / English

Create your very own board game by printing the template from this [link](#) or by drawing your own. Your theme can be anything you like; race across the seven seas to find the treasure on an island, battle your way through a spooky forest to reach the castle and save the prince or princess, race around the world in a hot air balloon and be the first to get back to England, the possibilities are endless! Simply fill the numbers in the squares, design and draw the setting you want your board game to take place in and write the rules so you can play the game with your adults or siblings!

## Phonics:

You can practice segmenting and blending your words by playing this fun phonics game. All you need is some cupcake cases and some objects that you find around the house or in the garden / park. Simply choose a variety of small objects and write the words on the cupcake cases, sound the word out and place the corresponding item into that cupcake case.

## Makaton signing:

Why not learn how to sign the alphabet using Makaton. Below is a sheet on how to sign each letter and you can click this [link](#) for a video to watch to help you learn. You could then spell different words to a partner and see if they can work out what you are saying!
