

Garlinge Primary School and Nursery

6th September 2021

Dear Parents and Carers,

As a large primary school, we all have a responsibility to respect our local community and the residents of Garlinge.

Unfortunately, we are frequently being contacted by local residents who are experiencing problems as a result of inconsiderate parking which is often of a dangerous manner. We have also had numerous reports from residents who regularly have cars parked across their driveways causing them to be late leaving home and more concerningly on some occasions missing medical appointments. As you will appreciate this is extremely frustrating, particularly if someone has waited a long time for an appointment.

Whilst we appreciate that parents and carers need to be able to park around the school in order to drop off and collect their children, please bear in mind the residents who live locally as they should not be inconvenienced due to this kind of parking.

We appreciate the efforts that the majority of our families make to keep everyone safe and would request that we all bear this in mind on our journeys to and from school.

Yours faithfully

Mr S Cope & Mrs A Northrop
Heads of School
